Text *Discrete Mathematics with Applications*
By Susanna S. Epp, Third Edition.
Published by Brooks/Cole.

Assessment Your overall course grade will be determined by your quizzes, homework, and exam grades in the following proportions:

- 10% quizzes (lowest 2 quizzes will be dropped).
- 25% homework (*no* homework will be dropped).
- 20% first in-class exam
- 20% second in class exam
- 25% comprehensive final examination during exam week.

No make-up exams will be given. Absence for a *documented* University-sanctioned excuse will result in the other exams being scaled to compensate.

Homework Homework will be assigned on a weekly basis. You may discuss the homework with other students but must submit your own work. Doing the homework is your practice at proving things and is an intrinsic part of the course.

- Material on the homework is examinable.
- Homework will be collected at the start of class.
- Late homework will NOT be accepted without prior arrangement.
- Homework must be *neatly* written on one side of the paper and stapled.

Academic Integrity Students who violate University rules on scholastic dishonesty are subject to disciplinary penalties, including the possibility of failure in the course and/or dismissal from the University. Since such dishonesty harms the individual, all students, and the integrity of the University, policies on scholastic dishonesty will be strictly enforced.

For further information please visit the Student Judicial Services website at <http://www.utexas.edu/depts/dos/sjs/>

Disabilities The University of Texas provides, upon request, appropriate academic accommodations for qualified students with disabilities. For more information please contact the Office of the Dean of Students at 471-6259, 471-4641 TTY.
