Exams: Midterms (9/29, 10/25, 12/1)
Final (Saturday, Dec. 11, 7—10 PM)

Text: Calculus (edition 6e) by James Stewart

Grades, etc: Homework 10%, 3 midterms (best two scores count 25% each, lowest midterm score is dropped), Final exam 40%

I will use the ± grading system: A, A-, B+, B, B-, etc. After course averages are computed I will construct a curve to determine letter grades. I will not "curve up" so you can be assured that a 90 or above average will be at least an A-, an 80 or above average will earn at least a B- and so on.

Homework will be submitted online through the Quest system: https://quest.cns.utexas.edu/. Details will be given in class. My class notes will be posted on Blackboard: http://www.utexas.edu/academic/blackboard/answers/utdirect.html

Attendance is not used in determining grades, but those who attend regularly do better.

Syllabus: http://www.ma.utexas.edu/dev/math/Courses/Syllabi/M408D.html

On Blackboard you will find a calendar listing our tentative schedule as to which sections will be covered on which days and when homework is due and which sections it covers.

Note: All homework is due at 2AM on the date indicated. The syllabus contains a list of prerequisites.

Students with Disabilities: The University of Texas provides appropriate academic accommodations for qualified students with disabilities. For more information, contact the Office of the Dean of Students at 471-6259, 471-6441 TTY. If you plan on using accommodations, you need to notify your Instructors early in the semester.
Religious Holidays:  By UT Austin policy, you must notify me of your pending absence at least fourteen days prior to the date of observance of a religious holy day. If you must miss a class, an examination, a work assignment, or a project in order to observe a religious holy day, you will be given an opportunity to complete the missed work within a reasonable time after the absence.
